

David W. Swindle, Jr., P. E.
Executive Vice President, International and Special Programs
URS Federal Services

Dave is currently responsible for the URS Federal Services (URS) International and Special Programs. Most recently, he was Executive Vice President for Mission Assurance functions covering health, safety, and the environment and performance management. A key responsibility is to serve as URS's executive for coordinating international operations and new international business development. He has more than 30 years direct experience with program and acquisition management, including profit and loss responsibility for defense, aerospace, national and homeland security, intelligence, contingency operations, logistics, and nuclear industries. He has worked extensively in the Middle East for more than 20 years and in international disarmament/nuclear safeguards and treaty verification for the International Atomic Energy Agency and the United Nations, and in contingency operations and intelligence programs supporting the United States, United Kingdom, and North Atlantic Treaty Organization military commands.

Prior to re-joining URS, Dave was President of IAP Worldwide Services, Inc., a privately held \$1B+/annum facility management, acquisition, logistics, contingency, and disaster response technical services firm, with more than 5,500 employees and operations in more than 27 countries. He was also Senior Vice President of KBR, Inc., directing KBR's Business Acquisition and National Security Programs in the Americas, Asia-Pacific, Europe-Africa, and the Middle East. From 1998 to 2001, Dave served as Vice President and Assistant General Manager for EG&G's Engineering and Technology Services Division.

In September 2006, Dave was appointed by the Secretary of the Army to the Army Science Board specializing in project management and acquisition program transformation and management. He just completed chairing the Science Board's study on "Data to Decisions" for small units. In addition, he has served for 19 years on the Department of Energy's (DOE) Environmental Management Advisory Board, which advises the Secretary of Energy's Assistant Secretary for Environmental Management on project management and major program acquisitions, and on policy and technical issues facing cleanup of civilian and defense sites.

Dave is a registered Professional Engineer in seven states. He has a B. S. Degree in Engineering Science from Tennessee Technological University, a Masters Degree in Nuclear Engineering from Virginia Polytechnic Institute and State University, and an M.B.A. in Industrial Management from the University of Tennessee, Knoxville, Tennessee.
