About PSC

The Professional Services Council (PSC) is the voice of the government technology and professional services industry, representing the full range and diversity of the sector. PSC is the most respected industry leader on legislative and regulatory issues related to government acquisition, business and technology. PSC helps shape public policy, leads strategic coalitions, and works to build consensus between government and industry. PSC's more than 400 member companies represent small, medium, and large businesses that provide federal agencies with services of all kinds, including information technology, engineering, logistics, facilities management, operations and maintenance, consulting, international development, scientific, social, environmental services, and more. Together, the trade association's members employ hundreds of thousands of Americans in all 50 states.

SERVICE CONTRACTOR MAGAZINE

Service Contractor is published by the Professional Services Council. Our magazine reaches professionals across the federal technology and professional services industry, key members of Congress and agency leaders. The magazine focuses on industry news, key issues in acquisition regulation and legislation, legal trends, and more.

No other magazine tailors its content so exclusively to the government technology and professional services sector.

Distribution

No magazine tailors its distribution like *Service Contractor* does.

We mail copies to the most influential executives in every PSC member company and to a hand-curated list of the decision makers on the Hill and in the agencies. Then we distribute digitally to the thousands of contacts in PSC's database, through pscouncil.org in an attractive online reader, and through digital downloads. You'll log 10,000+ impressions each issue through our digital campaigns alone.

You won't find a better mailing list anywhere if you want to reach the true players in your target markets.
