## Member Year-Long Investments Overview

PSC now offers investment packages ranging from \$5,500 to \$50,000 that blend sponsorships, advertising and year-long recognition at multiple levels for our membership with a significant discount. Get a substantial discount on the sponsorships you already purchase, plus an additional level of recognition. “A-la-carte” options are still available, but year-long level commitments get first access to the limited numbers of opportunities.

# SNAPSHOT OF LEVELS

## Founder Level (3 Available)

The Founder Level partnership is the highest tier with the most benefits to advertise your brand at more than 100 PSC events and through hundreds of publications. With the opportunity to send multiple members of your company to our conferences for free, you will see your logo displayed prominently at all PSC events, and you will receive recognition through digital newsletters, social media mentions, emails, and more. Between choosing one major PSC conference and two smaller PSC conferences to be a top sponsor, you will be able to get in front of your potential teaming partners and customer year-round.

## Leader Level (6 Available)

The Leader Level Partner is able to choose one major PSC conference to be a second-tier sponsor and one smaller PSC conference to be a first-tier sponsor. Your company visibility will continue throughout the year in digital ads, social media, emails, as well as verbal recognition. This is a great opportunity to be seen in one of PSC's largest conferences as a Platinum or Innovator sponsor.

## Contributor Level (12 Available)

Lastly, the Contributor Level Partnership is for companies looking to improve business development and visibility at two of PSC's smaller conferences. Though you will not be able to advertise at the Annual or Vision Conference, this tier is great for raising the visibility of your brand to targeted audience such as international development or technology.
