Leaders Across Government

The Professional Services Council (PSC) is the voice of the government technology and professional services industry, representing the full range and diversity of the government services sector. PSC is the most respected industry leader on legislative and regulatory issues related to government acquisition, business and technology. PSC helps shape public policy, leads strategic coalitions, and works to build consensus between government and industry. With more than 400 company members, the trade association's members employ hundreds of thousands of Americans in all 50 states.

Association News

Service Contract Act Training March 29-30
pscouncil.org - 03/04/2016
By registering for the SCA training, you will leave with a thorough knowledge of regulations, a deep understanding of how the regulations are enforced, and the ability to implement industry "best practices" in your company's compliance activities. In addition, you will be provided up-to-date information on the most critical issues relating to the SCA.
